

Environmental Policy

Railscape recognizes its legal responsibilities under the Environmental Protection Act 1990 and its associated underpinning regulations and Network Rail Standards. The Managing Director is responsible for the implementation of the Company's Policy.

The Policy extends to all our services provided to the rail industry and other industry sectors, including weed killing, vegetation clearance, pest control, fencing, minor building works, litter clearance, waste removal, and graffiti removal etc.

The purpose of this Environment policy is to confirm to employees, customers, subcontractors and other stakeholders Railscape commitment to protecting the environment while working on Network Rail Infrastructure and all other sites of work.

Railscape are committed to the prevention of pollution and will comply with all relevant environmental legislation and, where reasonable, exceed their requirements. In addition, due consideration will be taken of other standards; e.g. Codes of Practice, British Standards, and where none exist, we will set our own.

Environmental matters will be integrated into, and considered, in business decisions throughout the Company, in particular, the identified significant aspects and impacts through the use of products, materials, equipment and natural resources from purchase to disposal. The aim of the Company is to prevent and / or reduce pollution from our activities.

Employees will be made aware of their environmental responsibilities relative to their position within the Company. Accordingly, measurable objectives, including targets and timescales, will be set and reviewed for continual improvement across Railscape.

The participation of employees is key to the success of the Environmental Management System. Therefore, the views of all are welcomed and encouraged which will improve systems, business performance, and compliance with legal, industry, Company and other standards.

Appropriate training, instruction and information will be provided to employees, as required, including suitable information to customers, sub-contractors and other stakeholders when implementing objectives and raising general awareness.
