

Purpose and scope

This policy sets out how we uphold diversity and equality in the workplace. It applies to all employees, in all areas in which Railscape Ltd operates.

Policy objectives

People are what make Railscape great. Our people come from a range of cultures and experiences – and the fresh thinking and passion they bring to work every day is a direct result of that tremendous diversity. Our approach to business is underpinned by a belief that all individuals should be treated fairly and has access to equal opportunities, regardless of their status. To attract, recruit, develop and retain the very best people at all levels, we are committed to respecting and embracing talent and working to support a culture that is inclusive and reflective of our vision and values.

We also look for high levels of diversity and inclusion in our suppliers, and encourage them to adopt similar philosophies in their relationships with their own employees and suppliers.

Our approach is based on three key principles:

Equality – we promote equality by removing barriers, eliminating discrimination and ensuring equal opportunity and access for all groups of people, both within Railscape and externally amongst those organisations and stakeholders with whom we have working relationships.

Diversity – we accept each person as an individual. Our success and competitiveness is built on our ability to embrace diversity – and we believe that everyone should feel valued for their contributions. By working together we will deliver the best possible solutions for our people, our clients and our business.

Inclusion – we create a working culture where differences are not merely accepted, but valued; where everyone has the opportunity to develop in a way that is consistent with our vision and values. Our aim is be a company where people feel involved, respected and connected to our success.
